#### WATER HEATER AND SMOKE DETECTOR STATEMENT OF COMPLIANCE

(C.A.R. Form WHSD, Revised 11/09)

Property Address: 10190 Empire Grade, Santa Cruz CA 95060

NOTE: A seller who is not required to provide one of the following statements of compliance is not necessarily exempt from the obligation to provide the other statement of compliance.

#### WATER HEATER STATEMENT OF COMPLIANCE

- 1. STATE LAW: California Law requires that all new and replacement water heaters and existing residential water heaters be braced, anchored or strapped to resist falling or horizontal displacement due to earthquake motion. "Water heater" means any standard water heater with a capacity of no more than 120 gallons for which a pre-engineered strapping license date and the capacity of the strapping license date and Safety Code §19211d). Although not specifically stated, the statue requiring a statement of compliance does not appear to apply to a properly installed and bolted tankless water heater for the following reasons: There is no tank that can overturn; Pre-engineered strapping kits for such devices are not readily available; and Bolting already exists that would help avoid displacement or breakage in the event of an earthquake.
- 2. LOCAL REQUIREMENTS: Some local ordinances impose more stringent water heater bracing, anchoring or strapping requirements than does California Law. Therefore, it is important to check with local city or county building and safety departments regarding the applicable water heater bracing, anchoring or strapping requirements for your property.
- TRANSFEROR'S WRITTEN STATEMENT: California Health and Safety Code §19211 requires the seller of any real property containing a water heater to certify, in writing, that the seller is in compliance with California State Law. If the Property is a manufactured or mobile home, Seller shall also file a required Statement with the Department of Housing and Community
- CERTIFICATION: Seller represents that the Property, as of the Close Of Escrow, will be in compliance with Health and Safety Code §19211 by having the water heater(s) braced, anchored or strapped in place, in accordance with those requirements

- 1. STATE LAW: California Law requires that every single-family dwelling and factory built housing unit sold on or after January 1, 1986, must have an operable smoke detector, approved and listed by the State Fire Marshal, installed in accordance with the State Fire Marshal's regulations. (Health and Safety Code §13113.8).
- LOCAL REQUIREMENTS: Some local ordinances impose more stringent smoke detector requirements than does California Law. Therefore, it is important to check with local city or county building and safety departments regarding the applicable smoke detector requirements for your property.
- TRANSFEROR'S WRITTEN STATEMENT: California Health and Safety Code §13113.8(b) requires every transferor of any real property containing a single-family dwelling, whether the transfer is made by sale, exchange, or real property sales contract (installment sales contract), to deliver to the transferee a written statement indicating that the transferor is in compliance with California State Law concerning smoke detectors. If the Property is a manufactured or mobile home, Seller shall also file a required Statement with the Department of Housing and Community Development.
- **EXCEPTIONS:** Generally, a written statement of smoke detector compliance is not required for transactions for which the Seller is exempt from providing a transfer disclosure statement.
- CERTIFICATION: Seller represents that the Property, as of the Close Of Escrow, will be in compliance with Health and Safety Code §13113.8 by having operable smoke detector(s) approved and listed by the State Fire Marshal installed in accordance with the State Fire Marshal's regulations and in accordance with applicable local ordinance(s).

WATER HEATER AND SMOKE DETECTOR STATEMENT OF COMPLIANCE (WHSD PAGE 1 OF 1)

Agent: Frank Murphy Phone: 831.457.5550 Fax: 831.401.2425 Prepared using WINForms® software Broker: Keller Williams Realty - SC 1414 Soquel Ave Ste 100 CA 95062 Santa Cruz

## Residential Earthquake Hazards Report

(See the back of this form for applicable government codes.) ASSESSOR'S PARCEL NO NAME STREET ADDRESS ZIP CODE CITY AND COUNTY Answer these questions to the best of your knowledge. If you do not have actual knowledge as to whether the weakness exists, answer "Don't Know." If your house does not have the feature, answer "Doesn't Apply." The page numbers in the right-hand column indicate where in this guide you can find information on each of these features. Doesn't Don't No Apply Know Page 1. Is the water heater braced, strapped, or anchored to resist falling during an earthquake? 2. Is the house anchored or bolted to the foundation? 3. If the house has cripple walls: · Are the exterior cripple walls braced? If the exterior foundation consists of unconnected concrete piers and posts, have they been strengthened? 4. If the exterior foundation, or part of it, is made of unreinforced masonry, has it been strengthened? 5. If the house is built on a hillside: · Are the exterior tall foundation walls braced? · Were the tall posts or columns either built to resist earthquakes or have they been strengthened? 6. If the exterior walls of the house, or part of them, are made of unreinforced masonry, have they been strengthened? 7. If the house has a living area over the garage, was the wall around the garage door opening either built to resist earthquakes or has it been strengthened? 8. Is the house outside an Alguist-Priolo Earthquake Fault Zone (zones immediately surrounding known earthquake faults)? 9. Is the house outside a Seismic Hazard Zone (zone identified as susceptible to liquefaction or landsliding)? 19 If any of the questions are answered "No," the house is likely to have an earthquake weakness. Questions answered "Don't Know" may indicate a need for further evaluation. If you corrected one or more of these weaknesses, describe the work on a separate page. As seller of the property described herein, I have answered the questions above to the best of my knowledge in an effort to disclose fully any potential earthquake weaknesses it may have. **EXECUTED BY** I acknowledge receipt of this form, completed and signed by the seller. I understand that if the seller has answered "No" to one or more questions, or if seller has indicated a lack of knowledge, there may be one or more earthquake weaknesses in this house. (Buyer) (Buyer) This earthquake disclosure is made in addition to the standard real estate transfer disclosure statement also required by law. The Homeowner's Guide to Earthquake Safety 29

#### STATEWIDE BUYER AND SELLER ADVISORY

(This Form Does Not Replace Local Condition Disclosures.

Additional Addenda May Be Attached to This Advisory. See Paragraph 45)

(C.A.R. Form SBSA, Revised 4/07)

10190 Empire Grade Santa Cruz, CA 95060

("Property").

#### **BUYER RIGHTS AND DUTIES:**

- The physical condition of the land and improvements being purchased are not guaranteed by Seller or Brokers.
- You should conduct thorough investigations of the Property personally and with appropriate professionals.
- If professionals recommend further inspections, you should contact qualified experts to conduct such inspections.
- You should retain your own professional even if Seller or Broker has provided you with existing reports.
- You should read all written reports given to you and discuss those reports with the persons who prepared them.
- You have the right to request that the Seller make repairs, corrections or take other actions based on inspections or disclosures.
- If the Seller is unwilling or unable to satisfy your requests, and you act within certain time periods, you may have the right to cancel the agreement. If you cancel outside these periods, you may be in breach of contract.
- The terms of the purchase agreement and any counter offers and addenda establish your rights and responsibilities.

YOU ARE STRONGLY ADVISED TO INVESTIGATE THE CONDITION AND SUITABILITY OF ALL ASPECTS OF THE PROPERTY. IF YOU DO NOT DO SO, YOU ARE ACTING AGAINST THE ADVICE OF BROKERS.

#### **SELLER RIGHTS AND DUTIES:**

- You have a duty to disclose material facts known to you that affect the value or desirability of the Property.
- You are obligated to make the Property available to the Buyer for inspections allowed by the contract.
- This form is not a substitute for completing a Real Estate Transfer Disclosure Statement, if required, and any other property-specific questionnaire or disclosure.
- The terms of the Purchase Agreement and any Counter Offers and Addenda establish your rights and responsibilities.

#### **BROKER RIGHTS AND DUTIES:**

- Brokers do not have expertise in all areas and matters affecting the Property or your evaluation of it.
- For most sales of residential properties with no more than four units, Brokers have a duty to make a reasonably
  competent and diligent visual inspection of the accessible areas of the Property and disclose to you material facts or
  defects that the inspection reveals.
- Many defects and conditions may not be discoverable by a Broker's visual inspection.
- If Broker gives a referral to another professional, Broker does not guarantee that person's performance. You may select any professional of your own choosing.
- Any written agreement between Broker and Buyer or Seller establishes the rights and responsibilities of those parties.
- 1. INSPECTIONS: Buyer and Seller are advised that Buyer has the right to obtain various inspections of the Property under most residential purchase agreements. Buyer is advised to have the Property inspected by a professional property inspection service within Buyer's inspection contingency period. A licensed building contractor or other professional may perform these services. The inspector generally does not look behind walls or under carpets, or take equipment apart. Certain items on the Property, such as chimneys and spark arresters, plumbing, heating, air conditioning, electrical wiring, pool and spa, septic system, well, roof, foundation and structural items may need to be inspected by another professional, such as a chimney sweep, plumber, electrician, pool and spa service, septic or well company or roofer. A general physical inspection typically will not test for mold, wood destroying pests, lead-based paint, radon, asbestos and other environmental hazards, geologic conditions, age, remaining useful life or water-tightness of roof, cracks, leaks or operational problems associated with a pool or spa or connection of the Property to a sewer system. If Buyer wants further information on any aspect of the Property, Broker recommends that Buyer have a discussion with the professional property inspector and that Buyer hire an appropriate professional for the area of concern to Buyer. Brokers do not have expertise in these areas. Brokers do not verify the results of any such inspection or guarantee the performance of any such inspector or service. Any election by Buyer to waive the right to a physical inspection of the Property or to rely on somebody other than an appropriate professional is against the advice of Brokers. Not all inspectors are licensed and licenses are not available for all types of inspection activities.

The copyright laws of the United States (Title 17 U.S. Code) forbid the unauthorized reproduction of this form, or any portion thereof, by photocopy machine or any other means, including facsimile or computerized formats. SBSA REVISED 4/07 (PAGE 1 OF 10)

#### STATEWIDE BUYER AND SELLER ADVISORY (SBSA PAGE 1 OF 10)

Property Address: Santa Cruz, CA 95060 Date: February 23, 2010

2. SQUARE FOOTAGE, LOT SIZE AND BOUNDARIES: Buyer and Seller are advised that only an appraiser or land surveyor, as applicable, can reliably confirm square footage, lot size, Property corners and exact boundaries of the Property. Representations regarding these items that are made in a Multiple Listing Service, advertisements, and from property tax assessor records are often approximations, or based upon inaccurate or incomplete records. Fences, hedges, walls or other barriers may not represent actual boundary lines. Brokers have not verified any such representations. Brokers do not have expertise in this area. If Buyer wants information about the exact square footage, lot size or location of Property corners or boundaries, Broker recommends that Buyer hire an appraiser or licensed surveyor to investigate these matters during Buyer's inspection contingency period.

- 3. SOIL AND GEOLOGIC CONDITIONS: Buyer and Seller are advised that real estate in California is subject to settling, slippage, contraction, expansion, subsidence, earthquakes and other land movement. The Property may be constructed on fill or improperly compacted soil and may have inadequate drainage capability. Any of these matters can cause structural problems to improvements on the Property. Civil or geo-technical engineers are best suited to evaluate soil stability, grading, drainage and other soil conditions. Additionally, the Property may have known or unknown mines, mills, caves or wells. Brokers do not have expertise in this area. If Buyer wants further information, Broker recommends that Buyer hire an appropriate professional. Not all inspectors are licensed and licenses are not available for all types of inspections.
- 4. GEOLOGIC HAZARDS: Buyer and Seller are advised that California has experienced earthquakes in the past, and there is always a potential of future earthquakes. Damage caused by an earthquake may not be discoverable by Buyer's or Brokers visual inspection. Inspection by a licensed, qualified professional is strongly recommended to determine the structural integrity and safety of all structures and improvements on the Property. If the Property is a condominium, or located in a planned unit development or in a common interest subdivision. Buver is advised to contact the homeowners association about earthquake repairs and retrofit work and the possibility of an increased or special assessment to defray the costs of earthquake repairs or retrofit work. Buyer is encouraged to obtain and read the booklet entitled "The Homeowners Guide to Earthquake Safety." In most cases a questionnaire within the booklet must be completed by Seller and the entire booklet given to the Buyer if the Property was built prior to 1960. If the Property was built before 1975, and contains structures constructed of masonry or precast (tilt up) concrete walls, with wood frame floors or roof, or if the building has unreinforced masonry walls, then Seller must provide Buyer a pamphlet entitled "The Commercial Property Owner's Guide to Earthquake Safety." Many areas have a wide range of geologic problems and numerous studies have been made of these conditions. Some of this information is available for public review at city and county planning departments. Buyer is encouraged to review the public maps and reports and/or obtain a geologist's inspection report. Brokers do not have expertise in this area. Buyer may be able to obtain earthquake insurance to protect their interest in the Property. Sellers who agree to provide financing should also consider requiring Buyers to obtain such insurance.
- 5. ENVIRONMENTAL HAZARDS: Buyer and Seller are advised that the presence of certain kinds of organisms, toxins and contaminants, including, but not limited to, mold (airborne, toxic or otherwise), fungi, mildew, lead-based paint and other lead contamination, asbestos, formaldehyde, radon, methane, other gases, fuel oil or chemical storage tanks, contaminated soil or water, hazardous waste, waste disposal sites, electromagnetic fields, nuclear sources, urea formaldehyde, or other materials may adversely affect the Property and the health of individuals who live on or work at the property as well as pets. If Buyer wants further information, Buyer is advised and Broker recommends that Buyer have the Property inspected for the existence of such conditions and organisms, and conditions that may lead to their formation. Not all inspectors are licensed and licenses are not available for all types of inspection activities. Buyer is also advised to consult with appropriate experts regarding this topic during Buyer's inspection contingency period. Brokers do not have expertise in this area. Broker recommends that Buyer and Seller read the booklets titled, "Residential Environmental Hazards: A Guide for Homeowners, Homebuyers, Landlords and Tenants," and "Protect Your Family From Lead In Your Home."
- **6. MOLD:** Buyer and Seller are advised that the presence of certain kinds of mold, fungi, mildew and other organisms, sometimes referred to as "toxic mold" (collectively "Mold") may adversely affect the Property and the health of individuals who live on or work at the Property as well as pets. Mold does not affect all people the same way, and may not affect some people at all. Mold may be caused by water leaks or other sources of moisture such as, but not limited to, flooding, and leaks in windows, pipes and roof. Seller is advised to disclose the existence of any such condition of which he or she is aware. Buyer should carefully review all of Seller's disclosures for any indication that any of these conditions exist. It is, however, possible that Mold may be hidden and that Seller is completely unaware of its existence. In addition, Mold is often undetectable from a visual inspection, a professional property inspection and even a structural pest control inspection. Brokers do not have expertise in this area. If Buyer wants further information, Broker recommends that Buyer have the Property tested for Mold by an environmental hygienist or other appropriate professional during Buyer's inspection contingency period. Not all inspectors are licensed and licenses are not available for all types of inspection activities.

Buyer's Initials (\_\_\_\_\_\_) (\_\_\_\_\_\_)

Seller's Initials (X\_\_\_\_\_) (X\_\_\_\_\_\_)

Reviewed by \_\_\_\_\_\_ Date \_\_\_\_\_\_

Property Address: <u>Santa Cruz</u>, <u>CA</u> 95060 Date: <u>February</u> 23, 2010

7. WATER INTRUSION: Buyer and Seller are advised that many homes suffer from water intrusion or leakage. The causes of water intrusion are varied, and can include defective construction, faulty grading, deterioration of building materials and absence of waterproof barriers. Water intrusion can cause serious damage to the Property. This damage can consist of wood rot, mold, mildew and even damage to the structural integrity of the Property. The cost of repairing and remediating water intrusion damage and its causes can be very significant. The existence and cause of water intrusion is often difficult to detect. Because you, your Broker or a general home inspector cannot visually observe any effects of water intrusion, Buyer and Seller should not assume that such intrusion does not exist. Broker recommends that Buyer have the Property inspected for water intrusion by an appropriate professional. Brokers do not have expertise in this area.

- 8. SEPTIC SYSTEM(S): Buyer and Seller are advised that a property may be served by one or more septic systems even though adjoining properties are connected to a sewer line. Buyer and Seller are also advised that some septic tanks and systems may have been abandoned or have leaked into ground water sources. Buyer is advised to contact the appropriate government agency to verify that the Property is connected to a sewer or served by a septic system. If the Property is served by a septic system it may consist of a septic tank, cesspool, pits, leach lines or a combination of such mechanisms ("collectively, System"). No representation or warranty is made by Seller or Broker concerning the condition, operability, size, capacity or future expansion of a System, nor whether a System is adequate for use by the intended occupants of the Property. A change in the number of occupants or the quantity, composition or methods of depositing waste may affect the efficiency of the System. In addition, the amount of rainfall and ground water table may also affect the efficiency of the System. Many factors including, but not limited to, natural forces, age, deterioration of materials and the load imposed on a System can cause the System to fail at any time. Broker recommends that Buyer obtain an independent evaluation of any System by a qualified sanitation professional during Buyer's inspection contingency period. Brokers do not have expertise in this area. Buyer should consult with their sanitation professional to determine if their report includes the tank only, or other additional components of the System such as pits and leach fields. Not all inspectors are licensed and licenses are not available for all types of inspection activities. In some cases, Buyer's lender as well as local government agencies may require System inspection. System-related maintenance costs may include, but not be limited to, locating, pumping or providing outlets to ground level. Brokers are unable to advise Buyer or Seller regarding System-related issues or associated costs, which may be significant. If Buyer and Seller agree to obtain a System inspection, Buyer and Seller are cautioned that the inspection cost may include, but not be limited to, the costs of locating, pumping or providing outlets to ground level.
- 9. WELL AND WATER SYSTEM(S): Buyer and Seller are advised that the Property may be served by one or more water wells, springs, or private community or public water systems. Any of these private or public water systems may contain bacteria, chemicals, minerals and metals, such as chromium. Well(s) may have been abandoned on the Property. Buyer is advised to have both the quality and the quantity of water evaluated, and to obtain an analysis of the quality of any domestic and agricultural water in use, or to be used at the Property, from whatever source. Water quality tests can include not only tests for bacteria, such as coliform, but also tests for organic and inorganic chemicals, metals, mineral content and gross alpha testing for radioactivity. Broker recommends that Buyer consult with a licensed, qualified well and pump company and local government agency to determine whether any well/spring or water system will adequately serve Buyer's intended use and that Buyer have a well consultant perform an extended well output test for this purpose. Water well or spring capacity, quantity output and quality may change at any time. There are no guarantees as to the future water quality, quantity or duration of any well or spring. If Buyer wants further information, Broker recommends that Buyer obtain an inspection of the condition, age, adequacy and performance of all components of the well/spring and any water system during Buyer's inspection contingency period. Brokers do not have expertise in this area.
- **10. WOOD DESTROYING PESTS:** Buyer and Seller are advised that the presence of, or conditions likely to lead to the presence of, or other infestation or infection of wood destroying pests and organisms may adversely affect the Property. Inspection reports covering these items can be separated into two sections: Section 1 identifies areas where infestation or infection is evident. Section 2 identifies areas where there are conditions likely to lead to infestation or infection. Brokers do not have expertise in this area. If Buyer wants further information, Buyer is advised and Broker recommends that Buyer have the Property inspected for the existence of such conditions and organisms, and conditions that may lead to their formation by a registered structural pest control company during Buyer's inspection contingency period.
- 11. EASEMENTS, ACCESS AND ENCROACHMENTS: Buyer and Seller are advised that confirming the exact location of easements, shared or private driveways or roadways, and encroachments on or to the Property may be possible only by conducting a survey. There may be unrecorded easements, access rights, encroachments and other agreements affecting the Property that may not be disclosed by a survey. Representations regarding these items that are made in a Multiple Listing Service, advertisements, or plotted by a title company are often approximations, or based upon inaccurate or incomplete records. Brokers have not verified any such representations. If Buyer wants further information Buyer is advised and Broker recommends that Buyer hire a licensed surveyor during Buyer's inspection contingency period. Brokers do not have expertise in this area.

Property Address: <u>Santa Cruz, CA 95060</u> Date: <u>February 23, 2010</u>

12. EARTHQUAKE FAULT ZONES AND SEISMIC HAZARD ZONES: Buyer and Seller are advised that California Public Resources Code Sections 2622 and 2696 require the delineation and mapping of "Earthquake Fault Zones" along known active faults and "Seismic Hazard Zones" in California. Affected cities and counties must regulate certain development projects within these zones. Construction or development on affected properties may be subject to the findings of a geological report prepared by a registered California geologist. Generally, Seller must disclose if the Property is in such a zone and can use a research company to aid in the process. If Buyer wants further information, Broker recommends that, during Buyer's inspection contingency period, Buyer make independent inquiries with such research companies or with appropriate government agencies concerning the use and improvement of the Property. Brokers do not have expertise in this area. Buyer is advised that there is a potential for earthquakes and seismic hazards even outside designated zones.

- 13. FIRE HAZARDS: Buyer and Seller are advised that fires annually cause the destruction of thousands of homes. Due to varied climate and topography, certain areas have higher risks of fires than others. Certain types of materials used in home construction create a greater risk of fire than others. If the Property is located within a State Fire Responsibility Area or a Very High Fire Hazard Zone, generally Seller must disclose that fact to Buyer under California Public Resources Code Section 4136 and California Government Code Sections 51178 and 51183.5, and may use a research company to aid in the process. If Buyer wants further information, Broker recommends that, during Buyer's inspection contingency period, Buyer contact the local fire department and Buyer's insurance agent regarding the risk of fire. Brokers do not have expertise in this area. Buyer is advised that there is a potential for fires even outside designated zones.
- **14. FLOOD HAZARDS:** Buyer and Seller are advised that if the Property is located within a Special Flood Hazard Area, as designated by the Federal Emergency Management Agency, or an area of Potential Flooding pursuant to California Government Code Section 8589.3, generally Seller must disclose this fact to Buyer and may use a research company to aid in the process. The National Flood Insurance Program was established to identify all flood plain areas and establish flood-risk zones within those areas. The program mandates flood insurance for properties within high-risk zones if loans are obtained from a federally-regulated financial institution or are insured by any agency of the United States Government. The extent of coverage and costs may vary. If Buyer wants further information, Broker recommends that Buyer consult his or her lender and/or insurance agent during Buyer's inspection contingency period. Brokers do not have expertise in this area. Buyer is advised that there is a potential for flooding even outside designated zones.
- **15. BUILDING PERMITS, ZONING AND CODE COMPLIANCE:** Buyer and Seller are advised that any structure on the Property, including the original structure and any addition, modification, remodel or improvement may have been built without permits, not according to building codes, or in violation of zoning laws. Further, even if such structure was built according to the then-existing code or zoning requirement, it may not be in compliance with current building standards or local zoning. It is also possible that local law may not permit structures that now exist to be rebuilt in the event of damage or destruction. Buyer is advised to check with appropriate government agencies or third party professionals to verify permits and legal requirements and the effect of such requirements on current and future use of the Property, its development and size. If Buyer wants further information Broker recommends that Buyer discuss the issue with an appropriate professional during Buyer's inspection contingency period. Brokers do not have expertise in this area.
- **16. VIEWS:** Buyer and Seller are advised that present views from the Property may be affected by future development or growth of trees and vegetation on adjacent properties and any other property within the line of sight of the Property. Broker makes no representation regarding the preservation of existing views. If Buyer wants further information, Broker recommends that Buyer review Covenants, Conditions and Restrictions, if any, and contact neighboring property owners, government agencies and homeowner associations, if any, during Buyer's inspection contingency period. Brokers do not have expertise in this area.
- 17. FUTURE REPAIRS, REPLACEMENTS AND REMODELS: Buyer and Seller are advised that replacement or repairs of certain systems or remodels of portions of the Property may trigger requirements that homeowners comply with laws and regulations that either come into effect after Close of Escrow or are not required to be complied with until the replacement, repair or remodel has occurred. Permit or code requirements or building standards may change after Close of Escrow, resulting in increasing costs to repair existing features. In particular, changes to state and federal energy efficiency regulations impact the installation, replacement and some repairs of heating and air conditioning units (HVAC). Federal regulations now require manufacturers of HVAC units to produce only units meeting a new higher Seasonal Energy Efficiency Rating (SEER). This will likely impact repairs and replacements of existing HVAC units. State regulations now require that when installing or replacing HVAC units, with some exceptions, duct work must be tested for leaks. Duct work leaking more than 15 percent must be repaired to reduce leaks. The average existing duct work typically leaks 30 percent. More information is available at the California Energy Commission's website http://www.energy.ca.gov/title24/changeout. Home warranty policies may not cover such inspections or repairs. If Buyer wants further information Broker recommends that Buyer discuss the issue with an appropriate professional during Buyer's inspection contingency period. Brokers do not have expertise in this area.
- **18. ERRANT GOLF BALLS:** Buyer and Seller are advised that if the Property is located adjacent to or near a golf course there is a possibility that golf balls may damage the Property or injure persons or pets on it. Additionally, persons playing golf may enter the Property to retrieve errant golf balls or for other purposes. Broker recommends that Buyer investigate this possibility during Buyer's Inspection contingency period. Brokers do not have expertise in this area.

Buyer's Initials ( ) ( ) (X )

Reviewed by \_\_\_\_\_ Date \_\_\_\_\_

Property Address: <u>Santa Cruz</u>, <u>CA</u> 95060 Date: <u>February</u> 23, 2010

**19. SCHOOLS:** Buyer and Seller are advised that children living in the Property may not, for numerous reasons, be permitted to attend the school nearest the Property. Various factors including, but not limited to, open enrollment policies, busing, overcrowding and class size reductions may affect which public school serves the Property. School district boundaries are subject to change. Buyer is advised to verify whether the Property is now, and at the Close of Escrow will be, in the school district Buyer understands it to be in and whether residing in the Property entitles a person to attend any specific school that Buyer is interested in. Broker recommends that Buyer contact the local school or school district for additional information during Buyer's inspection contingency period. Brokers do not have expertise in this area.

- **20. NEIGHBORHOOD NOISE SOURCES:** Buyer and Seller are advised that even if the Property is not in an identified airport noise influence area the Property may still be subject to airplanes and other aircraft, commercial or military or both, flying overhead. Other common sources of noise include traffic on streets and highways, trains and general neighborhood noise from people, dogs and other animals. Noise levels and types of noise that bother one person may be acceptable to others. Buyer is advised to satisfy him/herself with regard to any sources of and amounts of noise at different times of day and night. Brokers do not have expertise in this area.
- **21. PETS AND ANIMALS:** Buyer and Seller are advised that the current or previous owner(s) may have had domesticated or other pets and animals at the Property. Odors from animal urine contamination may be dormant for long periods of time and then become active because of heat, humidity or other factors and may not be eliminated by cleaning or replacing carpets or other cleaning. Pet urine and feces can also damage hardwood floors and other floor coverings. Additionally, an animal may have had fleas, ticks and other pests that remain on the Property after the animal has been removed. If Buyer wants further information, Broker recommends that Buyer discuss the issue with an appropriate professional during Buyer's inspection contingency period. Brokers do not have expertise in this area.
- 22. SECURITY AND SAFETY: Buyer and Seller are advised that state and local Law may require the installation of barriers, access alarms, self-latching mechanisms and/or other measures to decrease the risk to children and other persons of existing swimming pools and hot tubs, as well as various fire safety and other measures concerning other features of the Property. Compliance requirements differ from city to city and county to county. Unless specifically agreed, the Property may not be in compliance with these requirements. Brokers do not have expertise in this area. If Buyer wants further information, Broker recommends that Buyer contact local government agencies about these restrictions and other requirements.
- 23. RETROFIT: Buyer and Seller are advised that state and local Law may require the installation of operable smoke detectors, bracing or strapping of water heaters, and completion of a corresponding written statement of compliance that is delivered to Buyer. Some city and county governments may impose additional retrofit standards, including, but not limited to, installing low-flow toilets and showerheads, gas shut-off valves, and tempered glass. Brokers do not have expertise in this area. Broker recommends that Buyer and Seller consult with the appropriate government agencies, inspectors, and other professionals to determine the retrofit standards for the Property, the extent to which the Property complies with such standards, and the costs, if any, of compliance.
- 24. WATER SHORTAGES AND CONSERVATION: Buyer and Seller are advised that the Property may be located in an area that could experience water shortages. The policies of local water districts and the city or county in which the Property is located can result in the occurrence of any or all of the following: (i) limitations on the amount of water available to the Property, (ii) restrictions on the use of water, and (iii) an increasingly graduated cost per unit of water use, including, but not limited to, penalties for excess usage. For further information, Broker recommends that Buyer contact the supplier of water to the Property regarding the supplier's current or anticipated policies on water usage and to determine the extent to which those policies may affect Buyer's intended use of the Property. If the Property is serviced by a private well, Buyer is advised that drought conditions and/or a low water table may make it necessary to arrange, through a private supplier, for delivery of water to the Property. Buyers should contact water truck companies for the costs involved. Brokers do not have expertise in this area.
- **25. NEIGHBORHOOD, AREA; PERSONAL FACTORS:** Buyer and Seller are advised that the following may affect the Property or Buyer's intended use of it: neighborhood or area conditions, including schools, proximity and adequacy of law enforcement, crime, fire protection, other government services, availability, adequacy and cost of any speed-wired, wireless internet connections or other telecommunications or other technology services and installations, proximity to manufacturing, commercial, industrial, airport or agricultural activities or military ordnance locations, existing and proposed transportation, construction, and development, any other source that may affect noise, view, traffic, or odor, wild and domestic animals, other nuisances, hazards, or circumstances, protected species, wetland properties, botanical diseases, historic or other governmentally-protected sites or improvements, cemeteries, conditions and influences of significance to certain cultures and/or religions, and personal needs, requirements and preferences of Buyer.

26. INSURANCE: Buyer and Seller are advised that Buyer may have difficulty obtaining insurance regarding the Property if there has been a prior insurance claim affecting the Property or made by Buyer but unrelated to the Property. Seller is required by C.A.R. Form RPA to disclose known insurance claims made during the past five years. Sellers may not be aware of claims prior to their ownership. If Buyer wants further information, Broker recommends that, during Buyer's inspection contingency period, Buyer conduct his or her own investigation for past claims. Buyer may need to obtain Seller's consent in order to have access to certain investigation reports. If the Property is a condominium, or is located in a planned unit development or other common interest subdivision, Buyer and Seller are advised to determine if the individual unit is covered by the Homeowner Association Insurance. Broker recommends that Buyer consult Buyer's insurance agents during Buyer's inspection contingency period to determine the need, availability and possibility of securing any and all forms of other insurance or coverage or any conditions imposed by insurer as a requirement of issuing insurance. If Buyer takes possession prior to Close of Escrow or Seller remains in possession after Close of Escrow, whether for a limited or extended period of time, Broker recommends that Buyer and Seller each consult with their own insurance agent regarding insurance or coverage that could protect them in the transaction (including but not limited to: personal property, flood, earthquake, umbrella and renter's). Brokers do not have expertise in this area.

- **27. CALIFORNIA FAIR PLAN:** Buyer and Seller are advised that insurance for certain hillside, oceanfront and brush properties may be available only from the California Fair Plan. This may increase the cost of insurance for such properties and coverage may be limited. Broker recommends that Buyer consult with Buyer's own insurance agent during Buyer's inspection contingency period regarding the availability of coverage under the California Fair Plan and the length of time it may take for processing of a California Fair Plan application. Brokers do not have expertise in this area.
- 28. HISTORICAL DESIGNATION, COASTAL COMMISSION, ARCHITECTURAL, LANDSCAPE, AGRICULTURAL OR OPEN SPACE AND OTHER RESTRICTIONS ON BUILDINGS OR IMPROVEMENTS: Buyer and Seller are advised that the Property may be: (i) designated as a historical landmark, (ii) protected by a historical conservancy, (iii) subject to an architectural or landscaping review process, (iv) within the jurisdiction of the California Coastal Commission or other government agency, or (v) subject to a contract preserving use of all or part of the Property for agriculture or open space. If the Property is so designated or within the jurisdiction of any such, or similar, government agency then there may be restrictions on Buyer's ability to develop, remove or trim trees or other landscaping, remodel, make improvements to and build on or rebuild the Property. Broker recommends that Buyer satisfy him/herself during Buyer's inspection contingency period if any of these issues are of concern to Buyer. Brokers do not have expertise in this area.
- **29. 1915 BOND AND MELLO-ROOS COMMUNITY AND OTHER FACILITIES DISTRICTS:** Buyer and Seller are advised that the Property may be subject to an improvement bond assessment under the Improvement Bond Act of 1915 and/or a levy of a special tax pursuant to a Mello-Roos community facilities or other district. Seller is generally required to make a good faith effort to obtain a disclosure notice from any local agency collecting such taxes and deliver such notice to Buyers. Brokers do not have expertise in this area.
- 30. HOMEOWNER ASSOCIATIONS AND COVENANTS, CONDITIONS AND RESTRICTIONS (CC&Rs): Buyer and Seller are advised that if the Property is a condominium, or located in a planned unit development, or in a common interest subdivision there are typically restrictions on use of the Property and rules that must be followed. Restrictions and rules are commonly found in Declarations of Covenants, Conditions and Restrictions (CC&Rs) and other governing documents. Further there is likely to be a homeowner association (HOA) that has the authority to affect the Property and its use. Whether or not there is a HOA, the Property may still be subject to CC&Rs restricting use of the Property. The HOA typically has the authority to enforce the rules of the association, assess monetary payments (both regular monthly dues and special assessments) to provide for the upkeep and maintenance of the common areas, and enforce the rules and assessment obligations. If you fail to abide by the rules or pay monies owed to the HOA, the HOA may put a lien against your Property. The law requires the Seller to provide the Buyer with the CC&Rs and other governing documents, as well as a copy of the HOA's current financial statement and operating budget, among other documents. Buyer is advised to carefully review all HOA documents provided by Seller and the CC&Rs, if any, and satisfy him/herself regarding the use and restrictions of the Property, the amount of monthly dues and/or assessments, the adequacy of reserves, current and past insurance coverage and claims and the possibility of any legal action that may be taken by or against the HOA. The HOA may not have insurance or may not cover personal property belonging to the owner of the unit in the condominium, common interest or planned unit development. See paragraph 26 for further information regarding insurance. Brokers do not have expertise in this area.
- **31. COMMUNITY ENHANCEMENT AND PRIVATE TRANSFER FEES:** Buyer and Seller are advised that some areas or communities may have enhancement fees or user-type fees, or private transfer fees, over and above any stated association fees. Private transfer fees: (A) may last for a fixed period of time or in perpetuity, (B) are typically calculated as a percentage of home's sales price, and (C) may have private parties, charitable organizations or interest-based groups as their recipients. Brokers do not have expertise in this area.

Property Address: <u>Santa Cruz, CA 95060</u> Date: <u>February 23, 2010</u>

- **32. GENERAL RECALL/DEFECTIVE PRODUCT/CLASS ACTION INFORMATION:** Buyer and Seller are advised that government entities and manufacturers may at any time issue recall notices and/or warnings about products that may be present in the Property, and that these notices or warnings can change. There is no single, all-inclusive source of information on product recalls, defective products or class actions; however, the U.S. Consumer Product Safety Commission (CPSC) maintains a website that contains useful information. If Buyer wants further information regarding the items listed below, Broker recommends that Buyer consult the CPSC website at <a href="http://www.cpsc.gov">http://www.cpsc.gov</a> during Buyer's inspection contingency period. The following are examples of recall/defective products/class action information. The information is not exclusive. If Buyer wants further information, Broker recommends that Buyer contact the sources below. Brokers do not have expertise in this area and will not determine if any aspect of the Property is subject to a recall or is affected by a class action lawsuit. (NOTE: While the information below is believed to be current as of the revision date of this form, phone numbers and web addresses may change or be discontinued.)
  - **A. FURNACES:** Buyer is advised that the CPSC has issued a warning regarding certain gas-fired horizontal forced-air furnaces that present a substantial risk of fire. The furnaces in question were manufactured from 1983 to 1994 by Consolidated Industries and were marketed under many different brand names. Homes built before 1983 or after 1994 could still have the furnaces in question due to replacements or remodeling. If Buyer wants further information, Broker recommends that Buyer contact CPSC's hotline at (800) 638-2772.
  - **B. WHIRLPOOL MICROWAVE-HOOD COMBINATION:** Buyer is advised that Whirlpool Corporation has voluntarily recalled approximately 1.8 million microwave-hood combinations that have been known to overheat and catch fire. The units at issue are installed above ranges and are sold under the Whirlpool, KitchenAid and Kenmore brand names. If Buyer wants further information, Broker recommends that Buyer contact Whirlpool by phone at (800) 785-8897 or at its website, <a href="http://www.repair.whirlpool.com">http://www.repair.whirlpool.com</a>.
  - **C. ROOF TILES:** Buyer is advised that there is a class action lawsuit concerning certain fire free tiles and quantum panels manufactured and installed by RE-Con Building Products, Inc. from December 1993 to November 1997. If Buyer wants further information, Broker recommends that Buyer call (800) 966-3696 or view the website at <a href="http://www.firefreeclaims.com">http://www.firefreeclaims.com</a>.
  - **D. FIRE SPRINKLER:** Buyer is advised that Central Sprinkler Company is recalling 35 million fire sprinkler heads that may be defective. If Buyer wants further information, Broker recommends that Buyer consult the CPSC website at <a href="http://www.cpsc.gov">http://www.cpsc.gov</a> or Central Sprinkler Company at (866) 505-8553 or <a href="http://www.sprinklerreplacement.com">http://www.sprinklerreplacement.com</a>.
  - **E. WATER HEATER:** Buyer is advised that certain water heaters manufactured by a variety of companies between 1993 and 1997 may be defective. If Buyer wants further information, Broker recommends that Buyer discuss the issue with an appropriate professional who can determine if the water heater on the Property is defective.
  - **F. ALUMINUM WIRING:** Buyer is advised that some properties in California are wired in whole or in part with aluminum wiring which was approved at the time of construction but subsequently determined to be a potential hazard. If Buyer wants further information, Broker recommends that Buyer discuss the issue with an appropriate professional who can determine if the wiring on the Property is defective.
  - **G. GALVANIZED, ABS, POLYBUTELENE AND COPPER PIPE:** Buyer is advised that galvanized steel water pipes may corrode and leak after several years and that ABS plastic drain waste and vent pipe may be subject to failure. Buyer is also advised that the adhesive used in the installation of polybutelene pipe has been subject to failure. Additionally, copper pipe installed in slabs may develop leaks as result of reaction to certain soils. If Buyer wants further information, Broker recommends that Buyer discuss the issue with an appropriate professional who can determine if the water pipes and drains on the Property are defective.
  - **H. WATER HEATER GAS CONTROL VALVES:** Buyer is advised that the CPSC in cooperation with Robertshaw Controls Company has announced a voluntary recall of approximately 178,000 gas control valves installed on water heaters manufactured between July 2005 and August 2005 with production date codes 5-31 through and

including 5-33 under brand names American Proline, Bradford White, GE, GSE, Hotpoint, Jetglas, John Wood, Lochinvar, Premire Plus, Powerflex, Rheem, Richmond, Ruud, Vanguard, Whirlpool and U.S. Craftsman. The CPSC reports that the screws on the valves could break allowing gas to escape from the valves. If Buyer wants further information, Broker recommends that Buyer consult the CPSC website at <a href="http://www.cpsc.gov">http://www.cpsc.gov</a> or contact Robertshaw Controls at (888) 225-1071 or <a href="http://www.robertshaw.com">http://www.robertshaw.com</a>.

Property Address: <u>Santa Cruz</u>, <u>CA</u> <u>95060</u> Date: <u>February 23</u>, <u>2010</u>

I. ARC-FAULT CIRCUIT BREAKER: Buyer is advised that the CPSC in cooperation with Schneider Electric has announced a voluntary recall of approximately 700,000 Square D Q® and Homeline® AFCI circuit breakers manufactured by Schneider Electric North American Operating Division. The recalled arc-fault interrupter circuit breakers are designed for use in 15 and 20-amp branch circuits; have a blue test button and were manufactured between March 2004 and September 2004. Tests show that these circuit breakers may not provide the arc-fault protection required by the 2001 California Electrical Code, Section 210-21. If Buyer wants further information, Broker recommends that Buyer consult the CPSC website at <a href="http://www.cpsc.gov">http://www.us.squared.com/recallafci</a>.

- **33. RENTAL PROPERTY RESTRICTIONS:** Buyer and Seller are advised that some cities and counties impose restrictions that limit the rent that can be charged to a tenant, the maximum number of tenants who can occupy the property and the right of a landlord to terminate a tenancy and the costs to do so. If Buyer wants further information, Broker recommends that Buyer investigate the issue with an appropriate government authority during Buyer's inspection contingency period. Brokers do not have expertise in this area.
- **34. LAND LEASE:** Buyer and Seller are advised that certain developments are built on leased land. This means that: (i) Buyer does not own the land, (ii) the right to occupy the land will terminate at some time, (iii) the cost to lease the land may increase at some point in the future, and (iv) Buyer may not be able to obtain title insurance. If Buyer wants further information, Broker recommends that Buyer discuss the issue with an attorney or other appropriate professional. Brokers do not have expertise in this area.
- **35. HOME WARRANTY:** Buyer and Seller are advised that Buyer and Seller can purchase home warranty plans covering certain standard systems of the Property both before and after Close of Escrow. Seller can obtain coverage for the Property during the listing period. For an additional premium, an upgraded policy providing additional coverage for air conditioning, pool and spa and other features can be purchased. Home warranties do not cover every aspect of the Property and may not cover inspections or upgrades for repairs required by state or federal laws. Broker recommends that Buyer review the policy for details. Brokers do not have expertise in this area.
- **36. INTERNET ADVERTISING:** Buyer and Seller are advised that Broker may employ a service to provide a "virtual tour" or Internet marketing of the Property, permitting potential buyers to view the Property over the Internet. Neither the service provider nor Broker has control over who will obtain access to the service or what action such persons might take. Buyer and Seller are advised that Brokers have no control over how long the information concerning the Property will be available on the Internet. Brokers do not have expertise in this area.
- **37. ESCROW FUNDS:** Buyer and Seller are advised that California Insurance Code section 12413.1 provides that escrow companies cannot disburse funds unless there are sufficient "good funds" to cover the disbursement. "Good funds" are defined as cash, wire transfers and cashiers' or certified checks drawn on California depositories. Escrow companies vary in their definitions of "good funds." Broker recommends that Buyer and Seller ask the escrow company regarding its treatment of "good funds." All drafts and out-of-state checks are subject to waiting periods and do not constitute "good funds" until the money is physically transferred to the escrow holder's account. Brokers do not have expertise in this area.
- **38. NOTICE OF YOUR "SUPPLEMENTAL" PROPERTY TAX BILL:** Buyer and Seller are advised that pursuant to Civil Code § 1102.6(c), Seller or his or her agent is required to provide the following "Notice of Your 'Supplemental' Property Tax Bill" to the Buyer:

"California property tax law requires the Assessor to revalue real property at the time the ownership of property changes. Because of this law, you may receive one or two supplemental tax bills, depending on when your loan closes.

The supplemental tax bills are not mailed to your lender. If you have arranged for your property tax payments to be paid through an impound account, the supplemental tax bills will not be paid by your lender. It is your responsibility to pay these supplemental bills directly to the Tax Collector.

If you have any questions concerning this matter, please call your Tax Collector's Office."

Although the notice refers to loan closing as a trigger, it is actually the change of ownership which triggers this reassessment. Therefore, the Property can be reassessed even if there is no loan involved in the purchase of the Property. The purchase agreement may allocate supplemental tax bills received after the Close of Escrow to the Buyer. If Buyer wants further information concerning these matters, Broker recommends that Buyer discuss the issue with the County Assessor or Tax Collector. Brokers do not have expertise in this area.

**39. NON CONFIDENTIALITY OF OFFERS:** Buyer is advised that Seller or Listing Agent may disclose the existence, terms, or conditions of Buyer's offer unless all parties and their agent have signed a written confidentiality agreement. Whether any such information is actually disclosed depends on many factors, such as current market conditions, the prevailing practice in the real estate community, the Listing Agent's marketing strategy and the instructions of the Seller.

- **40. FIRPTA/CALIFORNIA WITHHOLDING:** Buyer and Seller are advised that: (i) Internal Revenue Code section 1445 requires a Buyer to withhold and remit to the Internal Revenue Service 10% of the purchase price if Seller is a non-resident alien, unless an exemption applies. Seller may avoid withholding by providing Buyer a statement of non-foreign status. The statement must be signed by Seller under penalty of perjury and include Seller's tax identification number. Buyer can also avoid the federal withholding requirement if the property price is \$300,000 or less and the Buyer signs an affidavit stating Buyer intends to occupy the property as a principal residence. (ii) California Revenue and Taxation Code Section 18662 requires that a Buyer withhold and remit to the California Franchise Tax Board 3 1/3% of the purchase price unless the Seller signs an affidavit that the property was the Seller's (or the decedent's if a trust or probate sale) principal residence or that the sales price is \$100,000 or less or another exemption applies. Exemptions from withholding also apply to legal entities such as corporations, LLCs, and partnerships. Brokers cannot give tax advice. Broker recommends that Buyer and Seller seek advice from a CPA, attorney or taxing authority. Brokers do not have expertise in this area.
- **41. LIQUIDATED DAMAGES:** Buyer and Seller are advised that a liquidated damages clause is a provision Buyer and Seller can use to agree in advance to the amount of damages that a seller will receive if a buyer breaches the agreement. The clause usually provides that a seller will retain a Buyer's initial deposit paid if the Buyer breaches the agreement, and generally must be separately initialed by both parties to be enforceable. For any additional deposits to be covered by the liquidated damages clause, there generally must be another separately signed or initialed agreement. However, if the Property contains from 1 to 4 units, one of which the Buyer intends to occupy, California Civil Code Section 1675 limits the amount of the deposit subject to liquidated damages to 3% of the purchase price. Even though both parties have agreed to a liquidated damages clause, an escrow company will usually require either a judge's or arbitrator's decision or instructions signed by both parties in order to release the Buyer's deposit to the Seller. Buyers and Sellers must decide on their own, or with the advice of legal counsel, whether to agree to a liquidated damages clause. Brokers do not have expertise in this area.
- **42. MEDIATION:** Buyer and Seller are advised that mediation is a process in which the parties hire a neutral person to facilitate discussion and negotiation between the parties with the goal of helping them reach a settlement of their dispute. The parties generally share in the cost of this confidential, non-binding negotiation. If no agreement is reached, either party can pursue further legal action. Under C.A.R. Form RPA-CA; (i) the parties must mediate any dispute arising out of their agreement (with a few limited exceptions, such as matters within the jurisdiction of a small claims court) before they resort to arbitration or court, and (ii) if a party proceeds to arbitration or court without first attempting to mediate the dispute, that party risks losing the right to recover attorney fees even if he or she prevails.
- **43. ARBITRATION:** Buyer and Seller are advised that arbitration is a process by which the disputing parties hire a neutral person to render a decision. Generally, arbitration is faster and less expensive than resolving disputes by litigating in court. The rules are usually less formal than in court, and it is a private process not on the public record. By agreeing to arbitration the parties give up the right to a jury trial and to appeal. Arbitration decisions have been upheld even when arbitrators have made a mistake as to the law or the facts. If the parties agree to arbitration, then any dispute arising out of their agreement (with a few limited exceptions) must be submitted to binding arbitration. Buyer and Seller must weigh the benefits of a potentially quicker and less expensive arbitration against giving up the right to a jury trial and the right to appeal. Brokers cannot give legal advice regarding these matters. Buyers and Sellers must decide on their own, or with the advice of legal counsel, whether to agree to arbitration. Brokers do not have expertise in this area.
- **44. MEGAN'S LAW DATABASE DISCLOSURE**: Notice: Pursuant to Section 290.46 of the Penal Code, information about specified registered sex offenders is made available to the public via an Internet Web site maintained by the Department of Justice at www.meganslaw.ca.gov. Depending on an offender's criminal history, this information will include either the address at which the offender resides or the community of residence and ZIP Code in which he or she resides. (Neither Seller nor Brokers are required to check this website. If Buyer wants further information, Broker recommends that Buyer obtain information from this website during Buyer's inspection contingency period. Brokers do not have expertise in this area.)

#### <u>Updated County Ordinance for Water Conservation</u> Santa Cruz County Code, Chapter 7.69

READ & ACKNOWLEDGED		
Signature	date	
Signature	date	

#### Chapter 7.69 INSTALLATION OF WATER CONSERVATION DEVICES

#### 7.69.010 Findings and purpose.

The installation of water-saving low-flow showerheads and ultra-low-flush toilets before the sale of property would result in a substantial conservation of water and energy, and also reduce the burden on septic tank systems and sewer systems; and that such water and energy conservation devices may be installed at a nominal cost. (Ord. 4698 § 2 (part), 1/7/03)

#### 7.69.015 Relationship to other code requirements.

Property located within the water service area of the city of Santa Cruz shall comply with the requirements for the installation of water conservation devices as set forth in Chapter 7.74 of the county code. (Ord. 4698 § 2 (part), 1/7/03)

#### 7.69.020 Definitions.

For purposes of this chapter:

- A. "Significant expense" means that the cost for retrofitting any single fixture is estimated to be more than one-half of one percent of the market value of the property subject to transfer.
- B. "Water conservation retrofit devices" means for showers a low-flow showerhead which will have a maximum flow rate of not exceeding two and one-half gallons per minute (gpm), and for toilets, an ultra-low-flush toilet not exceeding one and six-tenths gallon per flush (gpf). (Ord. 4781 § 1, 4/5/05: Ord. 4698 § 2 (part), 1/7/03)

#### 7.69.030 Requirements for water conservation retrofit devices.

Commencing March 1, 2003, all sellers of residential, commercial or industrial property using water in showers and toilets shall be required to install water conservation retrofit devices as defined in Section 7.69.020 prior to the recording of any deed transferring title to the property to implement a sale of the property, or prior to the recording of a contract of sale pursuant to Section 2985 of the California Civil Code. (Ord. 4698 § 2 (part), 1/7/03)

<u>7.69.040 Exemptions.</u> A. The requirement for the installation of water conservation retrofit devices on showers shall not apply to any of the following:

- 1. All structures that include plumbing fixtures on the property changing ownership with evidence documenting that they were constructed or renovated in 1994 or later;
- 2. Any shower that is fitted with a low-flow showerhead with a maximum flow rate that does not exceed two and one-half gallons per minute;
- 3. Any emergency shower installed for health or safety purposes that cannot safely operate with a maximum flow rate that does not exceed two and one-half gallons per minute;
- 4. When the retrofit of a shower fixture to comply with this chapter would require a significant expense:
- 5. Any shower that will not function properly after being retrofitted in accordance with this chapter.
- B. The requirement for the installation of ultra-low-flush toilets shall not apply to any of the following:
- 1. Any toilet that already uses less than one and six-tenths gallons per flush.
- 2. When the retrofit of a toilet fixture to comply with this chapter would require a significant expense;
- 3. Any toilet that will not function properly after being retrofitted in accordance with this chapter. (Ord. 4781 § 2, 4/5/05: Ord. 4698 § 2 (part), 1/7/03)

#### <u>Updated County Ordinance for Water Conservation</u> Santa Cruz County Code, Chapter 7.69

#### **Chapter 7.69 INSTALLATION OF WATER CONSERVATION DEVICES**

#### 7.69.010 Findings and purpose.

The installation of water-saving low-flow showerheads and ultra-low-flush toilets before the sale of property would result in a substantial conservation of water and energy, and also reduce the burden on septic tank systems and sewer systems; and that such water and energy conservation devices may be installed at a nominal cost. - 2. When the retrofit of a toilet fixture to comply with this chapter would require a significant expense;
- 3. Any toilet that will not function properly after being retrofitted in accordance with this chapter. (Ord. 4781 § 2, 4/5/05: Ord. 4698 § 2 (part), 1/7/03)

7.69.050 Notice by sellers and agents. Any real estate agent, broker or salesperson involved in the sale of property subject to this chapter shall give written notice to the buyer and seller of these requirements prior to the closing of the sale of the property. A seller of any property subject to this chapter shall provide the buyer with a written certification of compliance with the requirements of this chapter stating that the required water conservation retrofit devices have been installed or that installation of devices is not required and the reasons why installation is not required under the terms of this chapter. (Ord. 4698 § 2 (part), 1/7/03)

<u>7.69.060 Violation--Penalty.</u> Any person, firm or corporation violating any of the provisions of this chapter shall be deemed guilty of an infraction and be fined in accordance with the provisions of Section 1.12.040 of the Santa Cruz County Code. Each day such a violation is committed or permitted to continue shall constitute a separate offense and shall be punishable as such. (Ord. 4698 § 2 (part), 1/7/03)

<u>7.69.070 Civil remedy.</u> If the seller fails to comply with the retrofit requirements, the buyer shall install the low consumption plumbing fixtures within ninety days from the date of sale. Any seller who fails to comply with the requirements of this chapter is liable to the buyer in the amount of two hundred and fifty dollars for each fixture that does not comply with this chapter at the time of sale, or the actual costs of the buyer to comply with this chapter, whichever amounts are greater. (Ord. 4698 § 2 (part), 1/7/03)

## County of Santa Cruz Installation of Water Conservation Devices Regulation

#### **Frequently Asked Questions (FAQs):**

- My home already has all low consumption fixtures. What do I do?
- Where do I get the "Water Conservation Certification" form?
- Where do I get the "Disclosure" form?
- I cannot download an Adobe Acrobat (PDF) file. How do I get a copy of the "Disclosure" and/or "Certification" forms?
- How do I get more information?

#### **Definition of "Water Conservation Retrofit Devices"**

Revised section 7.69.020 of the County Code specifically defines "water conservation retrofit devices" as low-flow showerheads (max. 2.5gpm) and ultra-low-flush toilets (max. 1.6gpf). <u>Installing a showerhead flow restrictor</u> (washer) or toilet tank displacement bag, dam, brick etc., does <u>NOT qualify</u>.

#### Why would I want to replace a perfectly good toilet?

The installation of water-saving low-flow showerheads and ultra-low-flush toilets will result in substantial conservation of water and energy and reduce the burden on septic tank and sewer systems. A recent study conducted in Seattle measured water use in single-family homes before and after installation of high efficiency toilets (DeOreo, et. al. 2001). The study found that when a family of four replaces all of their toilets with new high efficiency models, one family would save more than 14,000 gallons of water per year by installing 1.6 gpf toilets and more than 17,000 gallons of water per year by installing dual flush toilets!

Toilets and showers account for a combined 43.5% of the annual total water consumption per household.

#### How do I know if the County Ordinance applies to my property?

The County of Santa Cruz "Installation of Water Conservation Devices" Code, Chapter 7.69, applies to all residential, commercial and industrial properties located in the **UNincorporated** area of Santa Cruz County, **outside of the Santa Cruz City water service areas.** 

If your property is located in the **UNincorporated** areas of the county but you receive water from the Santa Cruz City Water Department, (such as in the Live Oak area) your are still required to retrofit under County Code 7.74. For

more information about Chapter 7.74 compliance requirements, please contact the City of Santa Cruz Water Conservation Office at (831) 420-5230 or go to the City's Water Department, Water Conservation Office web site at www.ci.santa-cruz.ca.us/wt/wtcon

What if I'm on a well or I receive water from one of the private water systems, Mutual Water Companies, Water Districts, City of Capitola, Scotts Valley or Watsonville. Do I still have to retrofit per County Code 7.69?

Yes, if the residential, commercial, or industrial property you are selling is located in the <u>UN</u>incorporated area of the County of Santa Cruz.

No, if your property is located in the **INcorporated** areas of Capitola, Scotts Valley, or Watsonville.

#### Do I have to retrofit my mobile home?

Yes, if the mobile home is owned along with the underlying parcel. No, if the mobile home is located on leased land.

#### Who is responsible for retrofitting the property?

The County regulations make the seller responsible for retrofitting. The seller may do the work him/herself or may hire someone to complete the retrofit. The County of Santa Cruz does not arrange for the retrofit fixtures or pay for the work to be completed.

Before hiring a professional check out What to Know, Before You Go, Low Flow

Do-It-Yourselfers click on *Installation Tips* 

Santa Cruz County does not arrange for the retrofit fixtures, nor pay for the work to be completed.

#### What if I want to transfer responsibility for the retrofit to the buyer?

The County of Santa Cruz Code does NOT permit a transfer of responsibility from the seller to the buyer. The County regulations make the seller responsible for completing all of the retrofits prior to the date of sale.

NOTE: 7.69.060 Violation—Penalty: Any person, firm or corporation violating any of the provisions of this chapter shall be deemed guilty of an infraction and be fined in accordance with the provisions of Section 1.12.040 of the Santa Cruz County Code.

Each day such a violation is committed or permitted to continue shall be a separate offense and shall be punishable as such. (Ord. 4698 § 2 (part), 1/7/2003). There is also civil remedy (7.69.070) for buyers.

#### What is required if the property is being sold "For Sale by Owner"?

The seller is responsible for completing the "Disclosure" form, all of the retrofits, and filling out and mailing the "Water Conservation Certification" form to the County of Santa Cruz prior to the recording of any deed transferring title to the property to implement a sale of the property, or prior to the recording of a contract of sale pursuant to Section 2985 of the California Civil Code.

#### What are the low consumption standards for showerheads and toilets?

- Plumbing Fixtures should be manufactured to meet the following standards:
- Low-flow Showerheads maximum rating of 2.5 gallons per minute (gpm)
- Ultra-low-flow Toilets maximum rating of 1.6 gallons per flush (gpf)

#### How do I know if I have low consumption showerheads?

First, check your showerhead for any labels that may say 2.5 gpm (gallons per minute). If you purchased and installed a new showerhead in the last ten years, it will be a 2.5 gpm model, since all showerheads sold in California were low consumption models beginning in 1992.

#### I don't know how much water my toilet flushes. How do I find out?

Toilets that were manufactured in 1994 or later are stamped or marked (at the back of the seat) 1.6 gpf or 6.0 lpf (liter per flush).

If your toilet does not have a stamp or mark identifying is as a low consumption fixture, please check the County's website at the link *How Much Water Does Your Toilet Use?* to help you determine the flush volume of your toilet.

#### What do I do with the old toilets?

Recycle them. For more information, call the County of Santa Cruz Recycle Hotline at 454-2333.

#### What toilets should I buy?

The Installation of Water Conservation Devices regulations do not require any specific brand of toilet, nor does the County recommend any particular model. The law simply requires that older higher volume toilets be replaced with ultra-low-flow toilets.

For more information see What to Know Before You Go Low-Flow

#### Can I get a toilet rebate when I replace my showerhead or toilet?

Please check with your water purveyor.

#### My home already has all low consumption fixtures. What do I do?

Congratulations! You are already saving a lot of water. Just fill out, sign and mail in the "Water Conservation Certification" form to the County.

#### Once you have the form:

- 1. Fill in the basic information, items 1 through 4 on the top of the form.
- 2. If you have replaced any showerheads or toilets with fixtures that meet the low-flow standards, indicate the numbers in item a.
- 3. If you are claiming any exemptions, such as having fixtures that already meet the low flow standards, please check all that apply in item b.
- 4. Sign and date the "Water Conservation Certification" form, then send a copy to the buyer and mail the original form to:

Water Conservation Program, 701 Ocean St., Room 312, Santa Cruz, CA 95060

#### Where do I get the "Water Conservation Certification" form?

At our County <u>website</u>, or at real estate offices and at the County of Santa Cruz Water Conservation Program office, located at 701 Ocean St., Room 312, Santa Cruz, CA 95060.

#### Where do I get the "Disclosure" form?

At our County <u>website</u>, or at real estate offices and at the County of Santa Cruz Water Conservation Program office, located at 701 Ocean St., Room 312, Santa Cruz, CA 95060.

I cannot download an Adobe Acrobat (PDF) file. How do I get a copy of the "Disclosure" and/or "Certification" forms?

If you cannot download an Adobe Acrobat (PDF) file, the form is available at real estate offices and at the County of Santa Cruz Water Conservation Program office, located at 701 Ocean St., Room 312, Santa Cruz, CA 95060.

#### How do I get more information?

For more information or copies of the forms, please contact:

The County of Santa Cruz Water Conservation Program Office 701 Ocean St., Room 312 Santa Cruz, CA 95060 Phone: (831) 454-3133

Fax: (831) 454-3128

#### ADDENDUM TO REAL ESTATE TRANSFER DISCLOSURE STATEMENT

## LOCAL DISCLOSURE REGARDING INSTALLATION OF WATER CONSERVATION DEVICES

This form is to be used when the Seller's property, whether residential, commercial, or industrial, is situated within:

unincorporated Santa Cruz County outside of the Santa Cruz City water service area.

#### **Summary of Ordinance**

Authority: Santa Cruz County Code Chapter 7.69

Prior to the recording of any deed transferring title to the property to implement a sale of the property or prior to the recording of a contract of sale, all sellers of residential, commercial, or industrial property shall install water conservation devices that restrict maximum water flow from showerheads to 2.5 gallons per minute and reduce the amount of water used in toilets to 1.6 gallons per flush.

#### **Exemptions**

- A. The requirement for the installation of water conservation retrofit devices on showers shall not apply to any of the following:
  - 1. All structures that include plumbing fixtures on the property changing ownership with evidence documenting they were constructed or renovated in 1994 or later;
  - 2. Any shower that is fitted with a low-flow showerhead with a maximum flow rate that does not exceed 2.5 gallons per minute;
  - 3. Any emergency shower installed for health or safety purposes that cannot safely operate with a maximum flow rate that does not exceed 2.5 gallons per minute;
  - 4. Any shower requiring significant structural modification to comply with this chapter;
  - 5. Any shower that will not function properly after being retrofitted in accordance with this chapter.
- B. The requirement for the installation of ultra low flush toilets shall not apply to any toilet that already uses less than 1.6 gallons per flush.

#### Certification

Seller must provide Buyer with a written certification of compliance with the requirements of this ordinance stating that the water conservation devices have been installed or that the installation of devices is not required because of the specific exemption(s) allowed under this law.

#### Failure to Comply

If the Seller fails to comply with the retrofit requirements, the Buyer shall install the low consumption plumbing fixtures within 90 days from the date of sale. Any seller who fails to comply with the requirements of this chapter may be liable to the buyer in the amount of two hundred and fifty dollars (\$250) for each fixture that does not comply with this chapter at the time of sale, or the actual costs of the buyer to comply with this chapter, whichever amounts are greater. Violation of these requirements is also deemed an infraction.

The undersigned hereby acknowledges receipt of a copy of this Addendum

## **MOLD ADVISORY**

Property Address:
It has been discovered that toxic and non-toxic mold may exist in homes, apartments and commercial buildings. Current information indicates that some types of mold may cause severe health problems for certain individuals.
Not all molds are detectable by a visual inspection by a Realtor® or even a professional building inspector. It is also possible that the property could have a hidden mold problem of which the seller is not aware.
The only way to provide any reasonable assurance that the property does not have a mold or other health hazard problem is to retain the services of an environmental expert who will conduct specific tests. These tests may consist of an interior and exterior examination for airborne spores and a carpet test, and other procedures that may be deemed necessary. Any visible mold should be professionally evaluated.
Keller Williams Realty advises that every buyer consider having a specific mold test performed by an environmental professional. This is especially necessary if any of the inspection reports or disclosure documents indicate that there is evidence of past or present moisture, standing water or water intrusion at the property since most mold thrives on moisture.
All inspections, including those to detect mold, are to be completed within the inspection period established in the purchase contract. Any waiver or failure on the part of a buyer to complete and obtain all appropriate tests, including those for mold, is against the advice of the Broker.
Broker has not and cannot verify whether or not there is any health hazard at the property.

### MEDIATION DISCLOSURE

WHAT IS MEDIATION? Mediation is a process used to resolve disputes. In mediation the parties to a dispute are assisted by a neutral third party called a mediator. The mediator is not empowered to impose a settlement on the parties; rather, the mediator facilitates discussions and negotiations with a goal toward reaching settlement.

HOW IS MEDIATION DIFFERENT FROM OTHER PROCESSES? Disputes can be resolved in many ways. Initially, the parties often try to negotiate a settlement. This can be done face to face or through representatives such as a real estate agent or attorney. On the other end of the spectrum parties can resolve their differences through self help. In between lay various options such as mediation, arbitration and litigation.

Litigation is an adversarial process in which parties look to a third person (judge or jury) to impose on them a binding decision. The litigation process is analogous to a contest in which a third person selects a winner and a loser. Arbitration resembles negotiation in that the parties present evidence to a third person who then decides their dispute. Arbitrations, however, are not held in the formal surroundings or under the normal rules of a court. Finally, the parties can approach a mediator to help them fashion a resolution. The mediator's role is to enable the parties to work with one another to achieve a common goal – a mutually acceptable agreement.

HOW DOES MEDIATION WORK? One of the benefits of mediation is that it does not have to follow any particular formal or structural format. Typically though, mediation will begin with the mediator introducing him/herself to the parties, confirming that any documents, such as a confidentiality agreement, have been signed and explaining the initial manner in which the mediation will be conducted. The parties are then each given a chance to express to the other how they view the dispute. Some mediators will then separate the parties and meet with each individually. Other mediators do not separate the parties unless a particular underlying or unexpressed feeling or issue needs to be dealt with in confidence.

The mediator looks for areas of agreement, identifies issues, proposes ideas and questions assumptions and positions but does not tell the parties how to resolve their dispute. Flexibility allows the mediator to tailor the process to suit the needs of the parties. If agreement is reached, the mediator often assists the parties in reducing the agreement to writing.

WHO AND HOW MUCH? Any neutral person the parties trust can mediate a dispute. This person can be a member of a panel of mediation service, a rabbi or a priest, or anyone else who does not have an interest in the outcome. California law does not require licensing or certification for mediators. However, many professional mediators have attended training programs, have had relevant dispute resolution experience and belong to professional organizations.

The cost of mediation can vary depending on the mediator selected and the location and time allotted for the mediation. Mediation fees can be as little as a few hundred dollars divided equally between the parties (or perhaps nothing at all for those who cannot afford it) to an initial filing fee of several hundred dollars plus an hourly fee for the mediator. Mediators can be located by looking in the local telephone directory under Mediation or Arbitration, contacting agencies such as the California Department of Consumer Affairs, or organizations such as a local bar association, or asking your lawyer.

## ARBITRATION DISCLOSURE

WHAT IS ARBITRATION? Arbitration is simply the name used to describe a particular method for resolving disputes between two or more parties. Just as problems may be solved through negotiation or, in extreme cases, litigation, so, too, may problems be resolved by the use of arbitration. As a matter of fact, generally speaking, arbitration may be used to resolve any type of dispute unless restricted by the arbitration agreement itself.

In an arbitration, a neutral person who is otherwise uninvolved in the dispute (the arbitrator) listens to the parties express their points of view and then renders the decision (called an award) based upon the presentation of the evidence.

The process, in some respects, is similar to what takes place in a court of law. For instance, any party to an arbitration may be represented by an attorney. However, unlike a court process, formal rules of evidence and procedure are not required and the dispute will not be decided by an active judge or jury. Nevertheless, the award issued by the arbitrator is binding upon the participants and can be enforced as if it were rendered in a court.

WHAT ARE SOME ADVANTAGES OF ARBITRATION? When disputes are resolved through arbitration, use of the judicial system is avoided. In many counties throughout the state the courts are backlogged with an overabundance of lawsuits. Progress of a court case comes slowly, the formal rules are cumbersome, and a trial may not take place for many months or even many years. The delays inherent in litigation create an emotional and financial hardship on almost all parties.

An arbitration, on the other hand, will almost always be resolved sooner than a court action. The entire process from start to finish is often completed in a few months. Furthermore, because of the advantages of speed and informality, attorney fees and costs are usually lower than in litigation. Arbitrations are also private. Thus, the testimony and any sensitive information will take place behind doors that are not open to the public. Additionally, individual arbitrators can be selected with an expertise in the particular field of dispute. This helps to ensure that the decision will be made by a knowledgeable and informed person. Lastly, arbitration awards are final, binding, and legally enforceable.

WHAT ARE SOME OTHER FACTORS TO CONSIDER? There is only a limited right to appeal an arbitration award; the parties must pay for the services of an arbitrator and, if a party does not comply with an award, the prevailing party may be required to go to court to enforce the award.

WHAT ISSUES CAN BE RESOLVED BY ARBITRATION? Arbitration may be used to decide virtually any type of claim, including actions or breach of contract, misrepresentation and fraud. Certain types of claims are excluded by statute from arbitration under a real estate listing or sales agreement. Examples include bodily injury, wrongful death, foreclosure, marital dissolution, and probate or eviction proceedings. Other limitations may appear in the clause itself. As a remedy, the arbitrator has the authority to award money damages, both actual and punitive, as well as specific performance.

WHAT SHOULD I DO? Think carefully about your decision concerning arbitration. It is important. Read the arbitration clause entirely before deciding whether to sign it. If you want more information ask your REALTOR® for the extensive Arbitration Question and Answer Memorandum prepared by the C.A.R. or consult your attorney. REMEMBER, THE CHOICE IS YOURS.

#### **CALIFORNIA ENERGY COMMISSION**

1516 Ninth Street Sacramento, California 95814 Main website: www.energy.ca.gov

#### **LETTER TO HOMEOWNERS:**

#### **NEW DUCT SEALING REQUIREMENTS - YOU WILL BENEFIT**

Beginning October 1, 2005, you must have your home's ducts tested for leaks when you have a central air conditioner or furnace installed or replaced. Ducts that leak 15 percent or more must be repaired to reduce the leaks. After your contractor tests and fixes the ducts, you choose whether to have an approved third-party field verifier check to make sure the duct testing and sealing was done properly or to have your house included in a random sample where one in seven duct systems are checked.

Duct sealing is not required in the following situations: 1) when homes are in specific coastal climates; 2) when systems have less than 40 feet of ductwork in unconditioned spaces like attics, garages, crawlspaces, basements or outside the building, or 3) when ducts are constructed, insulated or sealed with asbestos. There also are specific alternatives that allow high efficiency equipment and added duct insulation to be installed instead of fixing duct leaks.

You also should know that any contractor failing to obtain a required building permit and failing to test and repair your ducts is violating the law and exposing you to additional costs and liability. Real estate law requires you to disclose to potential buyers and appraisers whether or not you obtained required permits for work done on your house. If you do not obtain a permit, you may be required to bring your home into compliance with code requirements for that work and you may have to pay penalty permit fees and fines prior to selling your home.

The greatest energy use in California homes is for central air conditioning and heating. Most homes with central air conditioning and heating systems have ducts that were never properly sealed. The average home's ducts leak around 30 percent of the conditioned air outside the home. These leaks are taking money straight out of your pocketbook. Properly sealed ducts will lower your energy bills, reduce pollution inside your home, and help to avoid a repeat of the inconvenience and health and safety risks that we suffered during the power blackouts in 2000.

For more information, please contact the Energy Commission Efficiency Hotline at (800) 772-3300, or visit our website at <a href="https://www.energy.ca.gov/title24/changeout">www.energy.ca.gov/title24/changeout</a>.

Date: August 2, 2005

JACKALYNE PFANNENSTIEL

Vice Chair

ARTHUR H. ROSENFELD, Ph. D.

Commissioner

## RECEIPT FOR ENERGY COMMISSION LETTER REGARDING NEW DUCT SEALING REQUIREMENTS

The undersigned Buyer(s) and Seller(s) acknowledge receipt of the attached letter dated August 2, 2005 from the California Energy Commission regarding the New Duct Sealing Requirements that became effective on October 1, 2005.

Depending upon certain conditions, if a central air conditioner or furnace was installed or replaced after October 1, 2005, the ducts must be tested for leakage. If the ducts leak 15% or more, then repairs must be made to seal the ducts. Additional testing may then be required to verify that the work was done properly. It is strongly recommended that all of this work be done by licensed contractors who should obtain all required permits.

These new duct sealing requirements may impact a Seller's disclosure obligations and/or any negotiations between principals regarding replacing the heating, ventilating and air conditioning (HVAC) systems. These new requirements may increase the costs associated with replacing or installing an HVAC system.

Realtors do not have the requisite expertise to determine the need for testing or sealing ducts and will not verify the information provided by others about the condition of the HVAC system.

The undersigned acknowledge receipt of this disclosure and the attached letter.

#### <u>DISCLOSURE FORM RE COUNTY OF SANTA CRUZ AGRICULTURAL LAND</u> PRESERVATION AND PROTECTION ORDINANCE, CHAPTER 16.50

Santa Cruz County Code Section 16.50.090(a) Notification and Disclosure Statement Requirements.

A person who is acting as an agent for a Transferor of real property which is located in the unincorporated portion of the County or the Transferor if he or she is acting without an agent, shall disclose to the Acquiring Party that:

Santa Cruz County has a strong rural character and an active historical agricultural sector. As a property owner or lessee you should be prepared to accept properly conducted agricultural practices that are allowed for in Federal, State and County laws and regulations, are consistent with accepted customs and standards and are operated in a non-negligent manner. Accepted agricultural practices that may cause inconveniences to property owners during any 24-hour period may include but are not limited to: Noise, odors, fumes, dust, smoke, pests, operation of farm equipment, storage and application and disposal of manure and the application of pesticides and fertilizers by ground or air. The County of Santa Cruz will not consider an agricultural practice to be a nuisance if implemented in accordance with Federal, State and local law. Nothing herein is intended to limit rights under Federal, State, and local regulations governing pesticide use.

See Santa Cruz County Code Section 16.50.025 for Definitions.

The undersigned hereby acknowledge receipt of a copy of this Disclosure:
